PUBLISHERS' NOTE.

The publishers offer the first edition of the Directory of the City of Newton with the belief that it is the most reliable directory of Newton ever issued. The canvass, having been made by residents of Newton, is the most accurate ever taken. It has covered sections of adjoining towns, which properly form a part of the adjacent villages within our city limits, residents in such districts being properly designated. The map is the best of the kind ever published, and its large scale and clear lettering will commend it for convenient reference. Care has been taken to bring it up to date in all details. In the Municipal Register a full list of city officials and members of the City Council is given, from the incorporation of the city to the present time, making the book of special value for reference.

The census, taken in connection with the canvass, and the summary of which is given on page vii, shows a gratifying gain in Newton's population, which will no doubt be rapidly increased after the completion of the Circuit railroad, now being constructed.

Gain in four years,	- - - - -	2,488

An exact comparison by villages is not practicable, the state census being taken by wards, which do not exactly correspond with the villages. The combined population of Newton, Nonantum and Newtonville, by the above table, is 8,387 ; that of Wards 1, 2 and 7, in 1880, was 7,276 ; showing an increase in that section of the city of 1,111. West Newton shows an approximate gain of 646 ; Newton Center and Chestnut Hill combined have 405 more inhabitants than Ward 6 had in 1880.

City Government---1884.

THE annual municipal election is held the first Monday in December. The City Government is organized the first Monday in January. Fire-Alarm Telegraph.

The fire-alarm telegraph was introduced in 1873. At the pres-

ent time the system consists of fifty-three miles of wire, upon which are fifty signal stations, seven tower strikers, nine fifteen-inch and six eight-inch gongs, and four "electric door attachments." Alarms are given directly from the boxes to the Fire Department headquarters, and on the gongs in the engine houses and in the houses of the engineers, on the steam whistle at the Crehore paper mills, Lower Falls, and on bells located on the following buildings: Eliot church, Newton; Methodist church, Newtonville; City Hall-West Newton; Congregational church, Auburndale; Methodist church, Upper Falls, and Mason school, Newton Center.

Instructions.

CAUTIONS TO PERSONS HOLDING SIGNAL-BOX KEYS.

Never open a box, or touch the apparatus, except in case of fire.
 Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Be sure your box is locked before leaving it.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the Chief of Fire Department, City Hall.

DIRECTIONS IN CASE OF FIRE.

Get the key to the nearest box to the fire. Open the box; pull the hook all the way down once, and let go. If you hear no sound from the bells, or tapper in the box, pull again. If you fail the second time, go to the next nearest box and do the same; but do not touch any other box if the nearest one gives the alarm.

Remain at the box, if possible, after giving an alarm, to direct the firemen to the fire.

No person will give alarms for the same fire, after the first alarm has been given, without an order from the Chief or assistant engineer.

Citizens are earnestly requested to keep themselves informed as to the location of keys to signal boxes. Signs over each box will give the desired information.

School Signals.

1-111 (thirteen) once.—Morning session, 8.15 A.M.; afternoon session, 1.15 P.M.

Signals.

1.—Blow for test at 11.45 A.M. and 5.45 P.M. (Sundays, 12.15 P.M.)

1-1.—Two blows will be given when the companies in service at fires have "made up."

Should an alarm occur from another box before the signal is struck, companies answering second will immediately answer on first, companies answering third will answer second.

1-1-1 (three blows).—General alarm, and calls entire Fire Department.

14 blows, followed by the box number, will assemble the police in case of emergency.

11-11 (twenty-two).—Signal of No. 1 engine when called out of the city; same on return.

1-1-1 (three blows).—Signal of No. 2 engine when called out of the city; same on return.

III-III (thirty-three).—Signal of No. 3 engine when called out of the city; same on return.

Water Department.

Water Board.

EDWARD W. CATE, President.

Francis A. Dewson. Charles F. Crehore.
Alderman Noah W. Farley. Councilman Albert F. Upton.
Clerk, Albert S. Glover.

WATER REGISTRAR—Albert S. Glover; salary, \$1,800.

SUPERINTENDENT OF WATER WORKS—H. N. Hyde, Jr.; salary, \$1,500.

INSPECTOR OF METERS AND FIXTURES—J. C. Whitney; salary, \$1,050.

The water supply of Newton is taken from Charles river above Upper Falls. The water is filtered through gravel into a filtering basin (which also receives water from springs), on the Needham side, and is pumped to a reservoir on Waban hill, 265 feet above sea level. The capacity of the basin is 1,200,000 gallons daily; that of the larger engine at the pumping station is 5,000,000 gallons daily, and that of the smaller engine 1,000,000 gallons. The reservoir holds 15,000,000 gallons. The average daily consumption in 1883 was 624,381 gallons.

The town of Newton was authorized to take water from Charles river by chapter 344 of the Acts of the Legislature of 1872. December 1, 1874, the citizens voted to carry out the provisions of the act. Royal M. Pulsifer, Francis J. Parker and Robert R. Bishop were appointed water commissioners, and reported in May, 1875, in favor of constructing works at a cost of \$850,000. Their plan was adopted by the City Council June 2, 1875, and the same persons were chosen commissioners to build the works. Pipe-laying began the ensuing fall. By chapter 54 of the Acts of 1876 the city was authorized to take land in Needham for the filter basin, which was constructed that year, together with the pumping station and the reservoir. The water was first brought into the city in November, 1876, but only a few services were put in until the next spring. November 1, 1877, the commissioners made their final report, the works having cost \$766,157.22.

The cost of the Water Works to January 1, 1884, was \$943,100; length of mains laid, 67.6 miles; number of services, 2740; receipts for 1883, \$49,107.

WATER RATES.

No change from annual to meter rates will be allowed except between March 1 and April 1.

DWELLING-HOUSES.—If occupied by one family, for one faucet, \$6; each additional faucet, \$2; if occupied by two or more families, for one faucet, each family, \$4. (When two faucets are used, one for hot and one for cold water, both discharging into one basin, the two will be reckoned as one.) Bath tub, \$5; each additional bath tub, \$3; pan water-closet or self-closing urinal, \$5; each

additional closet or urinal, \$3; set wash-tubs, not more than three in each set, each set, \$1; private families, numbering not more than twelve persons, may commute the above for \$25; private families, numbering more than twelve persons, for each person in excess of twelve, \$3.

BOARDING-HOUSES.—Same rates as private families.

HOTELS.—Each bed for boarders or lodgers, \$3; bath-tubs, water closets, urinals and wash tubs, double the rates for private families.

STORES, OFFICES AND WAREHOUSES.—One tenant, for one faucet, \$6; each additional faucet, \$2; two or more tenants using one faucet, each tenant, \$4; pan water-closet or self-closing urinal, each tenant using, \$5; each additional closet or urinal, \$3.

STABLES.—Private stables, one horse, \$5; each additional, \$3; livery, club, or boarding stables, each horse, \$3; truck, cart, or omnibus stables, each horse, \$2. (The above includes water for washing carriages without hose.) Neat cattle, each head, \$1.50. (No stable to be charged less than \$5.)

HAND-HOSE.—(No hose over three-eighths inch orifice allowed.) Hand hose for washing carriages, when no other service is had, \$11; fifty cents additional for each horse. Hand-hose for washing carriages, when used in connection with stable, or other uses, \$3; fifty cents additional for each horse. Hand-hose for watering streets and gardens, not exceeding one hour per day, when no other service is had, for a year or any portion thereof, \$11; hand-hose for watering streets and gardens, not exceeding one hour per day, when used in connection with dwelling-house or other rated use, for a year or any portion thereof, \$5. Three dollars is added for each additional attachment with hose to fixtures in or upon the premises.

STEAM BOILERS.—In use not over twelve hours per day, for each horse-power, \$6.

BUILDING PURPOSES.—For each cask of lime or cement, 6 cents.

DRINKING FOUNTAINS AND HYDRANTS.—Each public drinking fountain, or watering-trough, \$6. (Private fire hydrants, to be used only in case of fire, no charge).

RATE BY METER.—For each hundred gallons, 3 1-2 cents. (Every meter will be subject to a minimum charge of \$10.)

SPECIAL RATES.—Special rates will be made, or meter rates charged, for markets, saloons, restaurants, bakeries, manufactories, workshops, public baths, halls, churches and railroads, and for purposes not included in any classification.

When application is made for shutting off and letting on the water, in case of repairs, or of protecting from frost, a charge will be made of one dollar.

REGULATIONS.—1. Persons taking water shall keep the service-pipe within their premises in good repair, and protected from frost, at their own expense, and will be held liable for all damage which may result from their neglect. Bills for repair of meters or service-pipe shall be paid within ten days after demand.

2. They shall prevent all waste of water, and shall not conceal the purposes for which it is used.

3. No alteration shall be made in any pipe or fixture inserted by the city, except by persons authorized by the Registrar, who may enter the premises to examine the apparatus, the quantity of water used and the manner of its use, and to ascertain whether there is waste.

4. No water shall be supplied to persons not entitled to the use of it, unless by special permission of the Registrar.

5. The use of hand-hose is restricted to one hour in each day, between six and nine o'clock A.M., or five and eight o'clock P.M., except where the water is drawn through a meter.

6. Distributing-pipes and water fixtures introduced into the premises of any water-taker shall be subject to the approval of the Registrar. No change affecting the flow of the water shall be made, nor additional fixtures put in, without his written approval.

The owner and the occupant of premises in which water is furnished by the city, who fails to keep the service-pipes and fixtures in good order, and neglects to repair them within three days after they have become defective, or neglects to shut off the water, so that it runs to waste, shall be liable to a fine of two dollars; and if the fine is not paid within two days after notice the water shall be cut off, and shall not be let on until the waste is stopped and the fine is paid, together with two dollars for cutting off and letting on the water. In case of a second offence within one year, the water shall be cut off, and shall not be let on except by a vote of the said committee, and the payment of such forfeit, not exceeding ten dollars, as the committee may impose.

Any plumber, or other person, who shall make any alterations in, or additions to, any water-pipe or fixture, except so far as a written permit therefor has been given by the Registrar, shall be liable to a fine not exceeding twenty dollars.

Whoever opens any hydrant, or removes the caps thereof, or opens or makes any connection with a pipe or reservoir, or turns off or on the water in a pipe or reservoir, without permission of the Water Registrar, the Superintendent of Water Works, or the Chief of the Fire Department, except in case of fire, shall be liable to a penalty of not less than three nor more than twenty dollars; provided, however, that in case of emergency the water may be turned off by any employe of the city, who shall, in such case, immediately notify the Registrar.

Whoever fishes in the reservoir or filtering-basin, or discharges any gun or fire-arm on the same, or on the grounds connected therewith, or bathes therein, or places or uses any boat therein, or posts any bill, placard or advertisement within said grounds, shall be liable to a fine of not less than five nor more than fifty dollars for each offence.

The Library contains over twenty-one thousand volumes, and is free to all residents of Newton twelve years of age and over. The circulation for 1883 was 83,430 volumes; daily average, 272.7. The number of names registered to take books from the library is about twelve thousand six hundred.

The free reading-room in the basement of the Library building is supplied with all the leading daily papers of the country, the local weeklies and the principal magazines.

Agencies for the delivery and return of books are maintained in the different villages, thus extending the benefits of the Library to residents of all parts of the city alike. Deliveries are made daily to the Center, Highlands, Upper Falls, Lower Falls, Newtonville, West Newton and Auburndale, and to Nonantum Mondays and Thursdays.

AGENCIES—Newton Center—Peck's fancy goods store, White's bl'k.
 Newton Highlands—Post-Office.

 West Newton—Newton Athenæum, Nickerson's block.

Auburndale—Brush's drug store, Auburn street.

Nonantum—Kinder's drug store, Watertown street.

The library was established through the efforts of citizens, and with funds raised by private subscriptions. The first movement was made in 1865 by the Newton Library Association, but without definite result. In 1866 sufficient funds were raised to buy the lot, which was placed in the hands of a board of trustees. In January, 1868, the late J. Wiley Edmands offered \$15,000 toward a building and library, provided as much more should be subscribed by the following March. Enough was raised to make a fund of \$65,275.77, and the Library building was erected and furnished at a cost of \$36,695.20. Ground was broken in June, 1868, and the corner-stone laid by Mr. Edmands August 13, 1868. The subscribers to the fund organized in 1869, and the first board of trustees was composed of the following persons: George H. Jones, president; John C. Chaffin, Isaac T. Burr, J. Wiley Edmands, George W. Bacon, John S. Farlow, A. B. Underwood, Joel H. Hills, George S. Bullens, George S. Harwood and Abner I. Benyon. The building was dedicated and opened to the public June 17, 1870, containing then about seven thousand volumes, the Newton Library Association having given its collection of 1,720 volumes, and 1,242 other books being presented by individuals. The library was incorporated March 24, 1871. By act of the Legislature of 1876 the trustees were authorized to transfer the library to the city, to be forever maintained as a free public library. The formal transfer was made March 16, 1876, in Mayor Speare's administration, the library then containing 11,287 volumes.

The city makes a yearly appropriation for the running expenses of the library and for new books. A fund of \$5,000 has been established by the bequest of Mrs. David B. Jewett for the purchase of works on art; one of \$1,000 by the gift of ex-Mayor Alden Speare, for works on the manufacturing and mechanical trades, and one by the bequest of Charles A. Read, from which \$600 will be received yearly.

The expenses for the year 1883 were \$8,874.73; appropriation for 1884, \$8,000.

Extracts from the City Ordinances.

CONSTRUCTION OF ORDINANCES.

ORDINANCE I, SECTION 4. In the construction of ordinances the following rules shall be observed, unless the construction thereby attained would be inconsistent with the manifest intent of the City Council, or repugnant to the context of the ordinance: that is to say:

First, Whenever any thing is prohibited, the agent or employer, as well as the person actually doing such forbidden act, shall be liable to the prescribed penalty.

Second, The words "street," "streets," "highway" and "highways" include avenues, courts, lanes, alleys, squares, places, and sidewalks, and each of these words includes every other of them.

Third, Words importing the singular number may extend and be applied to the plural number, and words importing the masculine gender may be applied to the feminine.

Fourth, Whenever any thing is prohibited to be done, without the permission or license of some officer or board, such officer or board shall have power to permit or license such thing to be done.

TAXES.

The ordinances regarding the collection of taxes are required to be printed on all tax bills.

THE MAYOR.

ORDINANCE VII, SECTION 1. The Mayor only is hereby authorized and empowered to affix the common seal of the city to, and to sign, seal, execute and deliver, in behalf of the city, all deeds and leases of land sold or leased by the city, and all deeds, agreements, contracts, indentures and assurances made and entered into by order of the City Council, or by order of any committee of the City Council, for that purpose duly authorized.

FIRE DEPARTMENT.

ORDINANCE XIII, SECTION 10. The Chief of Department shall examine all places where shavings or other combustible materials are deposited or collected; and shall see to the removal of the same, whenever, in his opinion, the same are dangerous; and shall direct the owners, tenants, or occupants of such places, to remove the same, which they shall do forthwith; and in case of refusal or neglect, he shall cause the same to be removed at the expense of such owners, tenants, or occupants.

SEC. 11. The Chief of Department shall observe all buildings in which steam engines are used, and all buildings in process of erection or alteration, and make a record of such of them as in his judgment may be dangerous, and report thereon to the Mayor and Aldermen forthwith. Whenever, in the opinion of the Chief of Department, any camphene or other explosive or inflammable fluid or material should be removed, he shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to remove the same, which he shall forthwith do. In case such tenant, owner, or occupant shall refuse or neglect so to do, the Chief of Department shall cause the same to be removed at the expense of such owner, tenant, or occupant.

No person shall obstruct the Chief of Department in carrying out the provisions of this section.

SEC. 14. No unauthorized person shall open any of the signal-boxes, except in case of fire, or interfere with the wires, or the poles, or other supports of the wires.

SEC. 15. The Chief of Department shall see that every person raising a false alarm of fire is prosecuted.

SEC. 17. No person shall draw water from the reservoirs or fire-hydrants, except in case of fire, and except as otherwise provided; nor shall any engine, hose, or truck, be taken out of the city, without permission of the Chief or Assistant Chief. No part of the apparatus shall be taken from the city, unless to a fire, without special permission from the Mayor and Aldermen.

SEC. 18. No occupant of any building or room in which there is a hatchway or trap-door shall suffer the same to be left open at night.

SEC. 20. No person shall wantonly or carelessly set fire to any tree, bush, grass, leaves, brushwood, rubbish, or other substance, in any place in the city of Newton.

SEC. 21. Whoever shall violate any provision of this ordinance shall forfeit a sum not exceeding twenty dollars.

STREETS AND WAYS.

ORDINANCE XVI, SECTION 9. No person, unless authorized by law, shall break or dig up any part of any street, square, or park, or common, without a written permit from a highway surveyor or the Superintendent of Streets.

SEC. 10. No person shall move, or assist in moving, any building through any street or way in the city, unless by written permission of the Board of Aldermen under such restrictions as said board may see fit to prescribe; but no permission shall be given in any case without providing that all chimneys or other projections shall be removed down to the roof; nor shall any building be moved which will necessitate or cause the destruction, mutilation or injury of any shade-tree in or upon any street or highway.

SEC. 11. Every person intending to erect or to repair any building upon land abutting on a street shall give notice to the Mayor and Aldermen, who may set apart such portion of the street as they shall deem expedient, for his use. All rubbish shall be promptly removed by such person, and, in case of neglect, the superintendent shall cause it to be removed at the expense of such person.

SEC. 12. Whenever any street, under such permission, is obstructed, the person so licensed shall keep a suitable railing or fence, sufficiently lighted every night, around the part of the street so obstructed. He shall also, within such reasonable time as the Mayor and Aldermen shall direct, amend and repair such street to the acceptance of the Highway Surveyors.

SEC. 13. No person shall make or maintain any gate, door-step, portico, porch, entrance or passageway to any cellar or basement, or any other structure projecting or swinging into or upon any street or sidewalk, except windows, without permission from the Mayor and Aldermen; and the lowest part of such windows shall

be at least ten feet above the sidewalk. No person shall suffer the platform or grate of the entrance or passageway to his cellar or basement, in any street or sidewalk, to rise above the surface thereof; and every such entrance or passageway shall, at all times, be kept covered by a suitable and substantial platform or grate, unless temporarily authorized to be kept open by the Mayor and Aldermen; and, when so kept open, it shall be protected by a sufficient railing on both sides, at least two feet and a half high, and shall be lighted at night.

SEC. 14. No person shall place over any sidewalk any awning or shade less than nine feet from the ground at the lowest part, nor shall any awning or shade extend beyond the line of the sidewalk; and no person shall erect a post, in any street or sidewalk, for the support of an awning, or for any other purpose, without permission of the Mayor and Aldermen.

SEC. 15. If any person shall dig a cellar or other cavity in the ground near to or adjoining any street, he shall, so long as is necessary for the purpose, keep a railing or fence on or near the line of such street, sufficient to protect travelers from falling into the place so dug, or being injured thereby.

SEC. 16. No person shall suffer his fuel, dirt, ashes or other rubbish, or any other material, to remain on any sidewalk or any street over night, or in any manner obstruct any sidewalk or street-crossing, without a permit from the Board of Aldermen, or play at ball or foot-ball, or fly a kite, or coast, or throw or shoot stones or other missiles, in any street or way; *provided*, however, that the alderman and councilmen from any ward may designate, by a writing filed with the City Clerk, one or more streets, or parts of streets, in his ward where coasting shall be permitted.

SEC. 17. No person owning or having the control of cattle or other animals, shall permit or suffer them to pasture or run at large upon any street, either with or without a keeper.

SEC. 18. No person shall ride or drive any horse, or cause the same to be ridden or driven, in any street, or over any bridge, at a pace faster than eight miles an hour. Every person having a wagon under his care, shall, when passing with the same over any street or bridge, hold the reins of his horse or horses, or be in such position as to be able at all times to restrain or govern such horse or horses.

SEC. 19. No bicycle or tricycle shall be propelled upon any street or way, unless provided with a bell to be rung when approaching any person; and neither shall be propelled upon a sidewalk.

SEC. 20. No drove of neat cattle, more than twenty-five in number, shall be driven through or over a public street, between the hours of six A.M. and ten P.M., unless in charge of three competent drivers. Any drove of a larger number shall be separated into droves not exceeding fifty each in number, to be driven in the same manner; and the droves shall be kept not less than twenty rods apart.

SEC. 21. No person shall make any indecent figures or write any obscene words upon, or deface, any fence or building. No person shall designedly frighten a horse in a street. Three or

more persons shall not remain together in a street so as to obstruct it.

SEC. 22. No person shall make, or cause to be made, any aperture in or under any street or sidewalk for the purpose of constructing coal-holes, or receptacles for any other articles, or for light and air, or for any other purpose, without the license of the Mayor and Aldermen; and no person shall leave such coal-hole or aperture open or unfastened except while actually in use.

SEC. 23. No person shall, except in the performance of some legal duty, discharge any fire-arm within the city.

SEC. 24. No person shall behave himself in a rude or disorderly manner, or use any indecent, profane or insulting language in any street, lane, alley or other public place, or near any building, or be or remain upon any sidewalk, or upon any door-step, portico or other projection from any such building, to the annoyance or disturbance of any person.

SEC. 25. Any person who shall place snow or ice upon a street, except that removed from a sidewalk, shall cause the same to be spread evenly; and no snow or ice shall be thrown or put into a street, or upon a bridge, contrary to the orders of the Superintendent of Streets.

SEC. 26. The owner, tenant and occupant of any building or lot of land abutting on any sidewalk built in whole or in part by the city or town of Newton, shall, after a fall of snow, without delay, cause the same to be removed from the sidewalk adjoining the premises. If they shall fail to do so, the Superintendent of Streets shall cause the snow to be removed, and such owner, tenant and occupant, shall severally be held to pay the expenses of such removal, and in addition shall forfeit and pay a sum not less than one dollar nor more than ten dollars.

SEC. 27. No owner or driver of any vehicle shall place such vehicle in any street, to await employment, without the permission of the Mayor and Aldermen.

SEC. 28. No person shall drive, wheel, or draw any vehicle, except a child's carriage drawn by hand, or permit any horse, or any cattle, swine, or sheep, under his care, to go upon a sidewalk, or otherwise obstruct or injure any sidewalk. No person shall unnecessarily stop a vehicle, or place any other obstruction, on any street crossing, or suffer his vehicle to stand an unreasonable length of time in a street; nor shall any person drive a vehicle upon or over any hose-pipe lawfully placed in a street, or in use at a fire.

SEC. 30. The Mayor and Aldermen may direct numbers, in regular series, to be affixed to or inscribed on buildings fronting on any street; and may determine the form, size and material of numbers, and the manner of affixing or inscribing them.

The owner and the occupant of any building, or part of a building, when so directed as aforesaid, shall affix to the same the numbers so designated, in such manner as shall be prescribed; and no such owner or occupant shall affix or retain on such building for more than three days, any number contrary to the direction of the Mayor and Aldermen.

SEC. 31. Whoever violates any provision of this ordinance shall

be fined not less than one dollar nor more than twenty dollars, unless otherwise provided in the preceding sections, and a like sum for every day an offence shall be continued.

BUILDINGS.

ORDINANCE XXIV, SECTION 1. No person shall erect, alter or rebuild, or essentially change any building, or any part thereof, for any purpose other than a dwelling-house, without first obtaining in writing a permit from the Board of Aldermen. The application for such permit shall specify the location and size of said building, the material of which it is to be constructed, and the use for which it is intended.

SEC. 2. No person shall use any building or part thereof, for any purpose rendering said building, or buildings adjacent thereto, hazardous, unsafe, or liable to be destroyed by fire, or dangerous to persons or property, without first obtaining a permit as named in section number one.

SEC. 3. All chimneys hereafter erected shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered inside with mortar, from top to bottom, and outside below the roofing. In no case shall chimneys rest upon any flooring without a footing of masonry or iron, supported by iron beams, having a secure bearing on iron at either end.

Hearths of fire-places or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

No woodwork of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue, and in no case shall a nail be driven into the masonry of any flue.

No woodwork shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes be cased with metal, leaving a free circulation of air all around the same.

No smoke-pipe shall pass through any stud or wooden partitions, whether plastered or not, without being guarded either by a double collar of metal, with at least four inches air-space, and holes for ventilation, or by a soap-stone ring not less than three inches in thickness and extending through the partition.

SEC. 4. Whoever violates any provision of the preceding sections of this ordinance shall be liable to a fine not exceeding one hundred dollars.

SEC. 5. No person shall proceed to erect or make alterations in the location or grade of any fence, wall or building, a part of which is to abut upon a public street, lane, square or alley, without first applying to the City Engineer for the lines and grade of the street, lane, square or alley upon which he intends to build. Such application shall be made at least fifteen days before the work is begun; and the City Engineer shall within said time furnish the required lines and grade without charge, if in his power so to do. In default of such application the city shall be discharged from all responsibility for damages resulting from such default.

SEC. 6. Whenever the City Engineer ascertains that any structure has been placed in violation of the preceding section, he shall at

once give notice to the Mayor and Aldermen, in writing, of such violation; and upon receipt of such notice the Mayor and Aldermen may forthwith issue an order to the party offending, directing that the structure be removed within the time therein specified; and, in case of non-compliance, the Mayor and Aldermen shall direct that the incumbrance be removed at the expense of the delinquent.

SEC. 7. Whoever violates any provision of the two preceding sections of this ordinance, shall be liable to a fine not exceeding twenty dollars.

Board of Health.

RULES AND REGULATIONS.

1. Every tenement shall be provided with a suitable water-tight privy-vault, or with a water-closet connected with a water-tight underground drain of proper size to carry off the contents, and with a similar drain to carry off the waste water to a cesspool.

No owner or occupant of any tenement or building shall permit any sewerage, filth, contents or drainage of a privy-vault, or cesspool, or sink-drain, or other source of filth of said tenement or building, to empty, enter or drain into any street or drain of the city, or any brook, stream or pond of water.

Every privy-vault or cesspool shall be built in a thorough and substantial manner, and located so that the inside of the same shall be at least three feet distant from the line of any adjoining lot or street. Cesspools must be of sufficient size to contain at least eighty cubic feet, 18 inches below the surface of the ground, and, when not water-tight, must be at least twenty feet from the cellar-wall of any tenement or dwelling, and two rods distant from any well, spring or other source of water-supply used for culinary purposes.

All drains, privy-vaults and cesspools shall be kept in thorough repair.

Privy-vaults and cesspools shall be emptied and cleansed at least once each year, and at such other times as may be necessary to prevent their becoming offensive, or whenever they are filled to a point within eighteen inches of the surface of the ground, or whenever required by the Board of Health or its agent.

If the occupant neglect to empty and cleanse any vault or cesspool within forty-eight hours after notice to do so, the Board of Health may have the same emptied and cleansed, and the expense incurred in so doing shall be paid by the owner or occupant of the estate. Earth-privies or closets may be established where dry earth or ashes is added to the deposit vaults in sufficient quantity to absorb all moisture, and the entire contents are removed weekly.

2. No cesspool or privy-vault shall be emptied except by a person especially authorized by a member of the Board of Health or its agent, nor in any other mode or time than that so authorized.

3. No person shall drive any cart or other vehicle, or carry any vessel containing night-soil or other offensive matter, in any street between the hours of four o'clock A.M. and ten o'clock P.M. between the first day of April and the following September inclusive, nor between the hours of five o'clock A.M. and nine o'clock P.M. from September first to April first, except by permission of the Board of Health.

4. Swill and other house-offal shall in all cases be kept in a properly covered receptacle.

5. Swill and other house-offal shall be collected and carried in the street only by such persons as may be authorized by the Board of Health, and shall be carried only in closely-covered carts, boxes or other tight vessels. Swill and other house-offal shall be removed from every inhabited building not less than three times a week between the first day of April and the following November inclusive, and not less than twice a week from November to April.

6. No person shall boil, burn or decompose in the city any bones or other refuse parts of neat-cattle or other animals.

7. No animals affected with an infectious or contagious disease shall be brought within the limits of the city. No diseased animal or its flesh shall be sold or offered for sale; and no decaying, diseased or unwholesome meat, fish, vegetables, fruit, or other articles of food shall be sold or offered for sale in the city.

8. All putrid, decaying or decayed animal or vegetable matter shall be removed from cellars and out-buildings on or before the first day of June in each year. No fish, slaughter-house offal or other decaying animal matter, contents of vaults, privies or cess-pools, shall be permitted to remain upon land for purposes of fertilization without being ploughed in or otherwise rendered innocuous and inoffensive.

9. Every person in whose dwelling there shall occur a case of cholera, yellow fever, small-pox, or varioloid shall immediately notify the agent of the board of same, and, until instructions are received from the Board of Health or its agent, shall not permit any clothing or other property that may have been exposed to infection to be removed from the house; nor shall any occupant take up a residence elsewhere without consent of the board.

10. Any physician who may be called to any case of either of the diseases specified in the foregoing regulations, or to any case of diphtheria, scarlet fever, typhus or typhoid fever, dysentery, cerebro-spinal meningitis, or cholera infantum, shall report such case immediately to the Board of Health or its agent, and receive instructions in regard thereto.

11. All persons affected with either of the diseases specified in Rule 9, and all articles infected by the same, shall be immediately separated from all persons liable to contract or communicate the disease, and none but nurses and physicians shall be allowed access to persons sick of said diseases; and no person sick of any of said diseases shall be removed at any time except by permission and under the direction of the Board of Health; but all persons infected with either of said diseases, who cannot be properly quarantined, may be removed according to law to such hospital or other

place as the Board of Health may direct, and no person shall obstruct, hinder or oppose such removal.

12. When any person dies of either of the diseases mentioned in Rule 9, or of diphtheria or scarlet fever, the body shall be buried in accordance with instructions of the Board of Health, and, if placed in a receiving tomb, shall be enclosed in a metallic coffin hermetically sealed.

13. All bedding and personal clothing, or other personal property, affected with contagion or infection by either of the diseases referred to in Rule 12, shall be at once properly cleansed and fumigated, destroyed, or otherwise treated as the Board of Health may direct.

14. No person or article liable to propagate a dangerous disease shall be brought within the limits of the city without special consent and direction of the Board of Health; and whenever it shall appear to any person that such person or article has been brought into the city, immediate notice thereof shall be given to the board, specifying its location.

15. No child from any family in which a case of small-pox, varioloid, diphtheria, scarlet fever, typhus fever or cholera shall occur shall attend any school in this city until the expiration of four weeks from the commencement of the last case in such family, without a written permit from the Board of Health. Such length of time shall be certified in writing by a physician or some responsible member of the family; the certificate to be presented to the teacher of the school before the child is admitted.

16. No teacher or other person shall be appointed to any position in any public school until he or she has furnished to the School Committee a certificate of a regular physician that he or she has been vaccinated within five years.

The School Committee are required to demand such certificates before making such appointments.

Attention is called to the following requirements of the Public Statutes regarding vaccination:

CHAPTER 47, SECTION 9. The School Committee shall not allow a child who has not been duly vaccinated to be admitted to or connected with the public schools.

CHAPTER 80, SECTION 51. Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and revaccinated when the selectmen or mayor and aldermen shall after five years from the last vaccination require it. For every year's neglect the party offending shall forfeit five dollars.

SEC. 52. The selectmen and mayor and aldermen shall require and enforce the vaccination of all the inhabitants, and, when in their opinion the public health requires it, the revaccination of all the inhabitants who do not prove to their satisfaction that they have been successfully vaccinated or revaccinated within five years. Every person over twenty-one years of age, not under guardianship, who neglects to comply with any such requirement, shall forfeit five dollars.

SEC. 53. Towns shall furnish the means of vaccination to such of their inhabitants as are unable to pay for the same.

SEC. 54. Incorporated manufacturing companies, superintendents of almshouses, state reform schools, industrial schools, lunatic hospitals, and other places where the poor and sick are received, masters of houses of correction, jailers, keepers of prisons, warden of the state prison, and superintendents or officers of all other institutions supported or aided by the state, shall at the expense of their respective establishments or institutions, cause all inmates thereof to be vaccinated immediately upon their entrance thereto, unless they produce sufficient evidence of previous successful vaccination within five years.

SEC. 55. Each town may make further provision for the vaccination of its inhabitants, under the direction of the Board of Health or a committee chosen for the purpose.

17. Unless the Board of Health shall permit otherwise, the drainage system of a hotel, tenement-house, dwelling-house, stable with sleeping apartment, or factory, in the city of Newton, Mass., shall be constructed as follows:

SECTION 1. FILING PLANS AND SPECIFICATIONS. — No person shall proceed to construct, add to, or alter any portion of the drainage system of said buildings (except to repair leaks), until they have filed at the office of the City Engineer, upon blanks in such form as the Board of Health shall order, a notice of the work to be performed.

No person shall commence work on such drainage or plumbing until the plans are approved by the Board of Health.

Plans and specifications will be approved or rejected within five days of the time of filing.

After a plan has been approved no alteration of the same will be allowed except on a written application of the owner.

SEC. 2. NOTICE. The Board of Health must be notified when any work is ready for inspection, and all work must be left uncovered and convenient for examination until inspected and approved.

SEC. 3. INSPECTION. All plumbing work in new buildings, or new work in old buildings shall be tested by the Board of Health with the hydraulic or such other test as the board may direct. And in case the work does not stand the test and the same is not repaired within ten days, the water shall be turned off, by order of said board, and not let on again till the plumbing has been pronounced satisfactory by the said board.

SEC. 4. MAIN DRAIN. Every building herein referred to shall be separately and independently connected with a common sewer or a cesspool.

That portion of the house-drain which is outside of the building, and more than four (4) feet from the foundation walls, shall be constructed of extra heavy cast iron soil-pipe or of the best quality of vitrified drain pipe.

That portion of the house-drain which is inside the walls, or under the building, and that portion outside of the building and within four feet of the foundation wall, must be of iron pipe with a fall of at least one-half (1-2) inch to the foot. It must run along the cellar wall and be securely fastened thereto, or suspended from the floor timbers in iron hangers. When impracticable it shall be laid in a trench, beneath the basement, or cellar floor, provided with

movable covers and walled up of such a width as to admit of access to all joints.

SEC. 5. TRAPS. The house-drain must have a trap located beyond all house connections of the same size as the drain, provided with a hand hole for convenience in cleaning.

SEC. 6. FRESH-AIR INLETS. There must be a fresh-air inlet pipe entering the drain on the house side of the main trap, of not less than four inches internal diameter, extending therefrom to the external air, and terminating at a point not less than three (3) feet above the ground, away from all windows.

SEC. 7. SOIL PIPE. All pipes receiving the discharge from water closets must be of iron at least four (4) inches internal diameter and continued of undiminished size at least two (2) feet above the roof, away from all windows, and left open at the top.

SEC. 8. BRANCHES. All branches over ten feet in length must be continued of undiminished size to the roof, and carried up at least four inches internal diameter through the roof and project at least two feet above it, and left open.

SEC. 9. CONNECTIONS. All connections with horizontal pipes shall be made by 1-8 bends and Y branches, and all changes in direction shall be by curved pipe. No trap shall be placed at the foot of a vertical soil pipe.

SEC. 10. WASTE PIPES. All waste pipes from sinks, basins, bathtubs, wash-tubs, etc., of 2 inches or less internal diameter, shall be of lead; all over 2 inches must be of iron.

SEC. 11. RAIN-WATER CONDUCTORS. Wherever rain-water conductors are connected with any pipe of the drainage system of a house, that portion within the house, or underground, or five feet above the ground, to be of cast iron pipe with lead joints, and in all cases provided with an extra deep trap where it enters the house drain. No rain-water conductor shall be used as a soil pipe.

SEC. 12. TRAPS. Every pipe connecting a water-closet with the soil pipe must be trapped close to the connection with the water-closet.

Every waste pipe must be trapped close to the fixture, and separately from any water closet.

SEC. 13. SAFE WASTES. All waste pipes from safes under fixtures must be run separately to basement or cellar and left open; in no case must they be connected with the soil pipe or any other waste pipe.

SEC. 14. REFRIGERATOR WASTES. No waste pipe from a refrigerator or other receptacle in which food or provisions are stored shall be connected with a drain, soil or other waste pipe, but must be separated therefrom by an open sink or tray furnished with a trap.

SEC. 15. TANK OVERFLOW. All overflow pipes from tanks must be left open and in sight. In no case shall it be run into a soil or waste pipe.

SEC. 16. VENTILATION OF TRAPS. All traps must be furnished with a vent pipe run from the crown of the trap. The vent pipe from a water-closet trap must be at least two inches in diameter; other vent pipes must be as large as the waste pipe from the trap.

All ventilation pipes from a soil or waste pipe must be run, of undiminished size, separately or combined together to the roof and carried up at least four inches internal diameter, through the roof and project at least two feet above it, and left open, or may be run into soil pipe above all connections.

In no case shall a soil, waste or ventilation pipe from a soil or waste pipe be connected with a chimney.

No brick, earthenware or sheet metal pipes shall be used for ventilation pipes from a soil or waste pipe.

SEC. 17. CAST-IRON PIPES. All cast-iron pipe must be free from holes and other defects, of a uniform thickness of not less than 1-8 inch for a diameter of 4 inches or less, and not less than 5-32 of an inch for 5 and 6-inch pipe, and shall have the weight of the following table for the corresponding diameters:

<i>Internal Diameter.</i>	<i>Ordinary Pipe.</i>	<i>Extra Heavy Pipe.</i>
2 inches, -	3 1-2 pounds per foot. -	5 1-2 pounds per foot.
3 inches, -	4 1-2 pounds per foot. -	9 1-2 pounds per foot.
4 inches, -	6 1-2 pounds per foot. -	13 pounds per foot.
5 inches, -	8 pounds per foot. -	17 pounds per foot.
6 inches, -	10 pounds per foot. -	20 pounds per foot.

And before being connected shall be thoroughly coated inside and out with coal-tar pitch applied hot by immersion, or some equivalent substance satisfactory to the City Engineer.

SEC. 18. QUALITY OF JOINTS. Every joint in earthen pipe shall be made in hydraulic cement, care being taken that the inside of the joints and of the pipe is properly cleaned out before connection is made with the house.

Every joint in lead pipe shall be made in solder, and wiped joints are to be used where practicable.

Every joint of an iron and a lead pipe shall be made by a brass ferrule of same size as lead pipe, set in the hub of the branch of the iron pipe and caulked with lead; the lead pipe to be attached to the ferrule by a wiped solder joint. Every joint in a cast-iron bell and spigot pipe to be made with packed oakum and molten lead well caulked, at least 1 1-2 inches deep, and made water and air tight, and no paint or putty shall be allowed till tested.

Where screw joints are used they shall be packed in red lead and made steam-tight.

SEC. 19. WATER-CLOSET SUPPLY. No water-closet shall be supplied directly from the house supply pipe, but shall be supplied from a special water tank or cistern used for no other purpose.

18. Whoever shall violate any provisions of these rules shall be liable to a fine not exceeding one hundred dollars, and a like penalty for every day after the first that an offence shall be continued.
